Jacques Harthong – Probabilités & Statistiques

I am trying to preserve the open-source book of Jacques Harthong (coauthor of the famous “Intuitionnisme 84” text) because its sources are difficult to find on the Internet since his death. As far as I know, the paperback book is also out of print.

Probabilités et Statistiques (in French)

/

“How to Become A Bayesian”

A nice article to get started with Bayesian data analysis.

How to become a Bayesian in eight easy steps: An annotated reading list. By A. Etz, Q. F. Gronau, F. Dablander, P. A. Edelsbrunner and B. Baribault
